

I am writing to express my opposition to the proposal that would allow Low Power FM stations to take priority over current FM translator service. We receive K-LOVE radio through translator service here in Los Lunas and it provides an invaluable service to my family our community and me. The station is unique in that it plays contemporary Christian music without commercials and without programs. It's all music that any family can listen to without being worried about being assaulted with the filth that is on many stations. If we didn't have K-Love we would be without a station to take it's place. This would be terrible for my family. We believe in the service that K-Love provides so much that we support it financially. There are thousands of listeners who do this in New Mexico and across the nation. That kind of devotion isn't found for regular, local stations very often. That level of commitment should tell you how detrimental it would be to let another station take priority over K-Love's translators. I believe that the public interest is served by K-love through their commitment to provide clean, decent programming that the entire family can listen to. I am so sick of the filth that pervades our airwaves masquerading as entertainment. Just because someone puts music to words doesn't make it fit to listen to. My family feels that bad language has no place in society and that it is contributing to the downfall of our society. Please don't take the ability to broadcast clean, uplifting music away from K-Love.

Sincerely,
Ron Hendrix
